

See nothing, hear everything

This speaker is designed for wall-mounted left, center and right speaker positions in a discreet home cinema system, and can be mounted beside, above or below the screen, ensuring crystal-clear dialogue and dramatic special effects.

Thanks to Bowers & Wilkins unique QuickDogs™ fixing method, installation is simple, requiring no tools. And in common with other recent CI products, it features an ultra-narrow bezel and magnetically attached metal grille, both of which can be customised to complement décor.
