

AVR-X4400H

9x 200W AV SURROUND RECEIVER WITH HEOS MUSIC STREAMING TECHNOLOGY

WORLD-CLASS HOME ENTERTAINMENT

Premium 9.2 channel AV Surround Receiver offering the most advanced 3D audio suite with Dolby Atmos, DTS:X and Auro-3D built-in, plus unparalleled music playback options, thanks to our HEOS technology.

HIGHLIGHTS

9.2 channel AV Receiver with 200W per channel; 11ch processing
 Built-in WiFi with 2.4GHz/5GHz dual band support; built-in Bluetooth
 4K/60 Hz pass-through, Dolby Vision compatible, HDR, HLG, eARC and BT.2020
 8 HDMI inputs (incl. 1 front) with full HDCP 2.2 support; 3 HDMI outputs
 Advanced Video Processing with analogue to HDMI conversion and full rate 4K Scaling
 Dolby Atmos and DTS:X (up to 7.1.4 with add. 2ch amplifier); Auro-3D built-in
 Built-in HEOS Wireless Multi-Room Audio Technology
 AirPlay, Bluetooth, Internet Radio, Spotify Connect, Tidal, Deezer, Network Audio Streaming
 High Resolution DSD (2.8/5.6MHz), FLAC, ALAC and WAV support
 Audyssey MultEQ XT32, Dynamic Volume and Dynamic EQ, LFC, Sub EQ HT
 Advanced Multi-Room options; 11.2ch Pre-out; RS232 Control

YOUR BENEFITS

9 powerful amplifiers for an easy 3D audio setup to fill big rooms with Denon sound
 Solid network connectivity especially in WiFi-crowded homes
 Latest HDMI standard for future-proof compatibility
 Plenty of inputs for your digital devices; different video in different rooms
 Full HD and even Ultra HD video quality from existing DVDs or analogue sources
 Unique 3D sound options with effects from overhead
 Enjoy your music in your whole house with more HEOS products
 Access to almost unlimited online music sources
 High Resolution audio streaming for HiFi enthusiasts even in Gapless
 Delivering ultimate equalization for your individual room including subwoofer EQ
 Audio and video in multiple rooms; ready for 3rd Party Home Automation systems

Powerful 9 Channel Discrete Amplifier with ECO Mode

The AVR-X4400H features a sophisticated power amplifier section with all 9 channels configured identically, employing discrete high current capable power transistors. Each channel is rated at 200 watts and all channels are able to safely drive lower impedance speakers (down to 4 ohms). There's also an Auto Eco mode that adjusts the maximum power available according to the volume level as well as an on-screen Eco meter that lets you see the power consumption reduction in real time.

Advanced Sound Processing

For optimum fidelity and the widest dynamic range with lowest distortion, the AVR-X4400H features advanced reference-class 32-bit AKM AK4458VN D/A converters on all channels. This ensures consistent high fidelity and precise channel matching across all channels for the ultimate listening experience.

Unique Denon Audio Technologies

AL32 Processing Multi-channel provides ultra-high-resolution digital audio filtering and precision for all audio channels, to deliver a natural soundstage with enhanced imaging. For contents recorded in multi-channel such as Blu-ray discs, the recorded low frequency effects (LFE) may be out of synch and delayed. Bass Sync technology corrects such a delay of low frequency effects for the perfect audio experience.

Enjoy superb audio fidelity

The AVR-X4400H features high resolution audio decoding with multiple lossless file types including ALAC, FLAC and WAV at up to 24-bit/196-kHz along with compatibility for 2.8/5.6-MHz DSD files (DSD is the audio coding format of SACD).

Get the amazing HEOS Experience

Enjoy your favourite music anywhere – and everywhere – around your home. Share music stored on your home network, Internet radio or streaming services with HEOS wireless speakers, or even other HEOS-capable receivers, throughout the house. Control it all with the free HEOS app. Enjoy music from Tuneln, Internet Radio and a wide range of streaming services including Spotify®, Tuneln Internetradio, Soundcloud®, Tidal, Napster or Deezer. Learn more about our HEOS family under www.heosbydenon.com

Unwire your sound

The AVR-X4400H is equipped with an advanced dual antenna system for robust and error-free music streaming, featuring Bluetooth and Wi-Fi connectivity as well as Apple's AirPlay for direct music playback from Apple's iDevices. With the “Denon 2016 AVR Remote” app you can control the receiver's operation and even control your connected Denon Blu-ray player. With the HEOS app you easily command your music and multi-room streaming.

Dolby Atmos / DTS:X / AURO-3D all built-in

Enjoy the most complete surround sound experience with latest audio formats Dolby Atmos, DTS:X and Auro-3D built-in. Most remarkably, the 9 channel amplification allows for setting up a 7.1.2 or 5.1.4 3D experience without the need of an external amplifier.

Ready for the future of home cinema

The AVR-X4400H's advanced video section is fully compatible with the latest HDMI and HDCP 2.2 specifications and prepared for any 4K Ultra HD source. High Dynamic Range (HDR), Dolby Vision compatibility, Hybrid Log Gamma (HLG) and eARC (enhanced Audio Return Channel; via future firmware update) are at hand as well.

You can also enjoy ultra-high-definition pictures from legacy analogue and digital sources. With three HDMI outputs, you can even connect a TV and a projector in the main room, while playing back different content on a second zone screen.

Measure your sound to your room

The AVR-X4400H features the most advanced Audyssey MultEQ XT32 room acoustic measurement system including Audyssey Dynamic Volume, Dynamic EQ, LFC and SubEQ HT. Through these technologies, and with the supplied microphone, it exactly analyses each speaker's output to optimize the overall listening experience. With the additional Audyssey MultEQ Editor App (available for purchase), very advanced users can even go further “under the hood” if desired.

External Control and IP Control Capabilities

The AVR-X4400H is equipped with a range of features to provide enhanced control capabilities and compatibility with 3rd party and custom integration solutions including Crestron Connected. This includes operation through IP control, either via wired LAN connection or Wi-Fi. For direct connection to external home automation and control equipment, it's also equipped with an RS-232C serial port. For simpler integrated control set-ups, the AVR-X4400H features an IR (infrared) remote control input on the rear panel, allowing remote control compatibility with other components in your home theatre system.

Technical information			
Number of power amps	9 (Front L/R, Center, Surround L/R, Surround Back L/R, Height 1 (Front wide/Height 2) L/R)		S/N Ratio
			100 dB (IHF-A weighted, DIRECT mode)
Power output	200 watts per channel (6 ohms, 1 kHz, THD 1%, 1ch driven)		FM section
			Tuning frequency range
	165 watts per channel (6 ohms, 1 kHz, THD 0.7%, 2ch driven)		AM section
			Tuning frequency range
	125 watts per channel (8 ohms, 20 Hz - 20 kHz, THD 0.08%, 2ch driven)		General
			Power supply
Speaker impedance	4 - 16 ohms		Power consumption
Preamplifier section	200 mV / 47 kohms		No-Sound
			Dimensions (W x H x D)
Input sensitivity/impedance			Weight
Frequency response	10 Hz - 100 kHz — +1, -3 dB (DIRECT mode)
